EDUCATION

42 Vienna
Software Engineering
2023 - Ongoing

42 School is a project-based coding school where students learn through real-world projects and peer collaboration. It emphasizes creativity, critical thinking, and hands-on experience in software development.

University of Debrecen
BSc in Computer Science
2018 - 2020

I learnt about the fundamentals of computers, programming, databases, algorithms, mathematics, etc.
Note : (incomplete)

Magura Govt. College
2014 - 2016

LANGUAGES

Bengali   - Native
English   - C1
Hungarian - A1
German   - A1 (and learning)

PROFILE

As a software engineering student at 42 Vienna, I am deeply passionate about hands-on learning and solving real-world challenges through technology. I am now ready to enter the corporate world and eager to learn new skills that solve real-world problems and make life easier. I am highly adaptable and can easily integrate into new environments. At 42, I have developed various soft skills in addition to coding and programming. We focus on following documentation, evaluate each other's projects, share knowledge, and work together as a team to complete projects.

WORK EXPERIENCES

Do & Co. Vienna **part-time** Kitchen Assistant.	2023 - 04.10.2024 Vienna, Austria
